**Contemporary Jazz & Soul from Helsinki**

**HOT AS HEL!** brings together the who's who in Helsinki dancefloor jazz and nu-soul circles. With artists ranging from the much hyped **Five Corners Quintet** to **Teddy Rok Seven**, from **Jori Hulkkonen** to **Quintessence** and beyond, the 12 tracks span the past, present and future of the contemporary Helsinki club jazz scene – the focus of international hype over the past few years. All previously released tracks are qualified classics, and the new & exclusive material included is destined to follow the path. For most of the album tracks, this is the first time this music is made available beyond the vinyl 12” single format.

**with 3 new tracks - all exclusive!****A1 Present Sense feat. Tuomo: "Nature Girl"**

After releases for Italy's **Archive** records among others, Present Sense have been building up their production catalogue and have also evolved into a 6 piece live band going places at the moment! **B1 Katriina: "Spared Your Kiss" (DharmaOne Production)**

**A great voice, a great track and classic soul/r&b production courtesy of DharmaOne...what else could you need?** Following in the footsteps of her mother, the model-turned-singer Katriina writes her own lyrics and is heavily involved in the songwriting process as well. Dharma One doesn't need introduction – after the runaway success of "**Belong**" he's now sharing his time between Manchester's Phuture Lounge collective and homebase Helsinki. Look out for more material from the Katriina & Dharmaone collaboration in near future !

**B2 J-City: "All You Give"**

Juha Tuukkanen and Terhi Koivisto met in Helsinki and gathered their experiences, influences and musical ideas for quite some time. Juha discovered electronic music at the age of 12, collaborating and networking with the northern electronic scene and has since been releasing records throughout Europe. Sessions with Terhi started to bear fruit last year, with a diversity of moods and styles merged by brilliant acoustic jazz, sweet electronics and an amazing voice. Now ready to launch 2 projects, the deep down **Spyritual** has been signed to **Kitty Yo** with an album forthcoming this fall, while nine2five has the priviledge to present the more dancefloor friendly **J-City** output.
